

**What I.S.'s Mother says about the...**

# ***Excelerate V2 Programme***

Dear Pika and Joanne,

Thanks for all the feedback and the great help with my son.

I have been sending him to various places and only your centre has given me positive statements and shown patience for I.S. Both of you and all your therapists are very nice, friendly and warm. I almost gave up - lost and confused, finding the right place for my son. I thank God that Joanne's Speech Therapy came highly recommended by one of my clients.

I am really happy and fully satisfied with the service I have experienced at your centre.

To be honest with both of you, after sending I.S to your programme for less than 2 months, I deeply feel very confident and relieved with his progress.

I am working very very hard day and night to get the best for my son so he may stay in your programme, although it is very costly for me as a single parent.

Please pray for me to be strong healthy and have a steady income so that he can be there the whole year.

May god bless all the therapists in your centre and students as well - to achieve their goals in life.

Thank you,

I.S' Mother
