

Our Experience at **EXCELERATE**

Julian C's Parents say....

We chose to do the Excelerate V2 Program because....

We liked that their program is carried out by therapists and not just teachers. Also, the program incorporates speech and occupational therapies on a daily basis.

What we like most about the Excelerate V2 Program is...

My son loves going to class! The proof is in the pudding. Every photo taken of Julian shows a happy and well adjusted child. His active participation in the program is evident. The dedicated staff at Excelerate is adept at getting Julian engaged and motivated. I also loved it that Julian started eating by himself after we enrolled him in the lunch time extended program!

We find the Excelerate V2 Program to be unique in the following ways...

Although it is in a group setting, ample attention is given to each child.

What we would tell our friends about the Excelerate V.2 Program...

If you only have time and the finances for one intervention or therapy, do it with Excelerate!

Personal Commentary...

I am thankful to the people behind Excelerate for Julian's development. It is obvious they do this with love and are constantly looking at new and innovative ways to improve their scope of services. Joanne and Pika are ever so ready to hear us out when we encounter issues to offer us solutions. I can see Julian is happy in class and that alone is worth it. Thank you so much Joanne and Pika, Georgie, Przemek, Suresh and Cindy – for being an integral part of Julian's growth.
