

Our Experience at EXCELERATE

Shixuan's Parents say....

Excelserate V2 Programme

Learning about books!

Literacy Module

We chose to do the Excelserate V2 Program because....

The program curriculum is well suited to address Shixuan's speech delay and poor social interaction skills.

The program was also highly recommended from Shixuan's paediatrician whom has patients that have attended Excelserate before.

What we like most about the Excelserate V2 Program is....

It utilizes group therapy to enhance/facilitate Shixuan's social interaction and communication responsiveness. Shixuan being the only child at home; has very little chance to be able to participate in peers play/interactions. Hence the group therapy feature can provide extensive help to Shixuan in this specific area.

We find the Excelserate V2 Program to be unique in the following ways...

- The flexibility to accommodate Shixuan's particular personality.
- Ability to accommodate arrangements that fit into our family situation.

What we would tell our friends about the Excelserate V.2 Program...

This is a great developmental preschool!

Personal Commentary...

We would like to express our heartfelt gratitude to Excelserate's team of therapists as well as the comprehensive program that has helped Shixuan improve so much! We have seen consistent improvements in Shixuan especially in his eye contact and social skills within 6 months! We can say that Excelserate is the antidote to our worries pertaining to Shixuan's speech delay/lack of social responsiveness.

Thank you Excelserate!
