
Our Experience in the
EXCELERATE V2 Programme

Tobey's Parents say...

We chose to do the Exceleerate V2 Program because....

It's a unique program which offers my child with the all-rounded and comprehensive academic and therapy support he needs to enable him to realize his full potential. The conducive and fun environment is a bonus!

What we like most about the Exceleerate V2 Program is....

That it offers everything under one roof- speech and occupational therapy, academics, play, work habits and lifeskills. No more rushing from centre to centre to cater to the different needs of the child.

We find the Exceleerate V2 Program to be unique in the following ways...

The program is flexible, specific and customized to meet the individual needs of the child, even up to the extent of varying it by the day, depending on how well the child copes and manages his needs each day.

What we would tell our friends about the Exceleerate V.2 Program..

We are indeed blessed to have discovered such an apt program for our child after a very long hunt and as we witness and celebrate every little accomplishment in our child's progress, we hope that others too may benefit from such a program and be greatly blessed like us.

Personal Commentary...

Exceleerate has been instrumental in helping Tobey to overcome many of his learning obstacles. For children with special needs such as his, we feel it is especially important that they feel accepted and wanted by society. At Exceleerate, we are confident that he is able to realize his potential, in an environment that is both welcoming and conducive to his learning. For this, we thank the staff for their dedication and continuous support in Tobey's development.

God bless,
Shirley
